

Dependent health coverage too expensive on your group plan?

We've got you covered!

With many options for dependent coverage, we can find the right fit for you. To see all of the available options in the state you live in, visit us online for self service or give us a call/email for assistance!

Already have an individual plan for your dependents through the marketplace but don't have an agent on your side to assist you?

We have you covered there too. We offer a no cost program to help you service your plan throughout the year, help you pick a plan at open enrollment, determine if your doctors are "in-network" and more.

Ask us today how to join the program, it's simple!

We can help you even if you're not eligible for group coverage
