

Dear Friend,

we invite you to **make a gift today** in honor of the meaningful work of our Hospice program. Your compassion will help us be there when it matters most.

Dear Friend,

At Cornerstone VNA, our Hospice team is honored to provide compassionate end-of-life care. With love, dignity, and a reassuring presence, we are dedicated to supporting each patient and their loved ones. **This heartfelt letter is a beautiful reflection of the impact of hospice care.**

"Please know how grateful our family is with the most caring and competent Hospice team, making my husband's end of life exceptionally comfortable.

Personally, it was the roughest situation I've experienced. Our children were incredibly loving, saying to me, "Mom, we have this! Sit with Dad! We have the rest!" Having the grandchildren here made it strangely festive. All of us would come and go to tell him how much we loved him!

I could write so much more. Will share just this one precious moment! I leaned over the railing of the bed and told my husband how much I loved him. His head, with eyes closed, turned and mouthed "I love you more!" I had no idea that he could hear me. No sound came from him, but I will treasure forever his silent words! Yes, even on his way to that other place, he was able to hear the last words I spoke to him!"

The patient's wife enclosed a kind gift with her letter and added, *"May this donation help to make others aware of the excellent work that is done 24/7 around the world."* Donations help us continue providing comfort, guidance, and peace to patients, regardless of their ability to pay, including support for families and even beloved pets. **Your generosity ensures that no one walks this journey alone.**

With heartfelt appreciation,

Jennifer Urkin, RN, MSN, BC-NC
President/CEO
